Caio Tolio Cavalli

Milan, Italy | EU citizen | +39 351 398 5208 | caiotoliocavalli@gmail.com | Linkedin

Data Analyst and Data-Driven Project Manager with 2+ years of hands-on experience in SQL, Python, Power BI, and ETL, plus project delivery across technical, commercial, and production teams. Automated drawing and reporting workflows in Python, cutting task time by ~70% (from 3-4 hours to 1), and improved data accuracy by 15-20% through KPI frameworks and BI reporting. Turns complex data into decisions through dashboards, automated reporting, and data storytelling. Fluent in English, Italian, and Portuguese.

CORE SKILLS

- **Data Analysis & BI:** Power BI, Excel (advanced), Google Sheets, KPI Design, Dashboarding, Data Visualization, Data Storytelling, Predictive Analytics, Forecasting, FP&A, Supply Chain Analytics.
- **Data Engineering:** SQL, MySQL, ETL, Data Cleaning, Data Integration, Data Pipelines, API Integration, Logging & Monitoring, GDPR-Compliant Data Handling.
- **Programming & Tools:** Python, PHP, Git, GitHub.
- **Project Management:** Project Delivery, Stakeholder & Client Management, Cross-Functional Collaboration, Process Optimization, Budget vs. Actual Tracking, Scheduling (Trello, Excel), Reporting.

PROFESSIONAL EXPERIENCE

Project Manager | Tecnolegno Allestimenti S.r.l - Milan, Italy - On-site Apr 2026 - Sep 2026

- Delivered ~2 projects/month (avg. €100K) with a team of 3, tracking schedules and budgets in Trello/Excel.
- Automated drawing and production reporting in Python, cutting task time from 3-4 hours to 1 (~70%).
- Built Power BI and Excel dashboards tracking delivery dates, supply chain consumption, and budget vs. actual to support sales and operational decisions.
- Served as primary client contact, translating technical requirements into business expectations.
- Aligned technical, commercial, and production teams to standardize processes and boost efficiency.

Data Analyst | Napkinn - Curitiba, Brazil - Hybrid Jun 2024 - May 2025

- Built predictive health-risk analyses on clinical and cost data to prioritize high-risk patients for earlier follow-up.
- Analyzed high-cost patients and providers in SQL and Power BI, highlighting elective specialties with the largest share of consultations to support cost-containment.
- Designed and maintained SQL/ETL (Extract, Transform, Load) routines to clean, standardize, and integrate ~5,000 clinical records covering 572 patients into analysis-ready datasets.
- Integrated the Scamalytics API into fraud-screening flows, cutting invalid submissions by ~20%.
- Implemented pipeline logging and traceability, cutting incident resolution time by ~10%.
- Partnered with cross-functional stakeholders to streamline analyst workflows and reduce friction in daily reporting.

PHP Developer | Nida Digital - Porto Alegre, Brazil - Remote Jun 2023 - Jun 2024

- Developed back-end features in PHP 7 and MySQL, including database integrations in a production environment.
- Built a contact form with logging and IP capture to monitor and analyze website traffic.
- Used Git/GitHub for version control, reducing deployment risk in production.

Data Analyst | FNK Group - Curitiba, Brazil - On-site Mar 2022 - May 2023

- Analyzed financial and operational data, improving data accuracy by 15-20%.
- Built KPIs, dashboards, and BI reports in Power BI, Tableau, and Excel to support management decisions.
- Supported FP&A with budgeting, cost analysis, forecasting, and performance tracking.
- Identified process inefficiencies and delivered 10-12% operational gains through data-based recommendations.
- Automated reporting workflows, reducing manual work by 3h/week and improving planning accuracy by 15%.
- Presented insights and scenario forecasts to Finance, Operations, Marketing, Procurement, and Design teams.

EDUCATION & CERTIFICATIONS

Google Data Analytics Professional Certificate | Google 2024 / 2025

Bachelor's Degree in Architecture and Urban Planning | PUCPR, Brazil 2009 / 2015
